25X1 1. By order of the Ministry of National Defense the military area commanders in Presov and Kosice (R 49/E 34) took steps to expedite the replacement of all wooden bridges on roads leading to Poland and the Carpatho Ukraine with re-inforced concrete structures. Voluntary labor brigades and possibly soldiers are to be used for this project. *

25X1 Comment. Since commercial road traffic from Slovakia to Poland or the Carpatho Ukraine is very light the bridge construction program in this region must be motivated by military considerations.
